FRIENDS OF THE REGINA PUBLIC LIBRARY

- Central Library is an outstanding example of modernist architecture designed by the internationally-known Saskatchewan architect Kiyoshi Izumi.
- Central Library holds Municipal Heritage Designation, and is protected within the Victoria Park Heritage Conservation District.
- We oppose the RPL Board's vote to demolish Central Library without public discussion or public plans.

We would support:

- Central Library remaining on its current site;
- the preservation and rehabilitation of the building; and,
- if confirmed in public discussions, expansion of Central Library.

Why?

- * more environmentally conscientious;
- * less costly; and,
- * preserves our heritage.

Kiyoshi Izumi.
